Worldgate Overview:

Worldgate establishes strong client relationships and lasting partnerships by exhibiting loyalty while providing expertise to our clients and partners. Worldgate's portfolio of customizable solutions ensures that IT supports your organizational goals, on budget and on time.

Worldgate Service Offerings:

Program Management Office

Implementation of a Program Management Office (PMO) has become standard within many IT organizations. Worldgate's PMOs function seamlessly with an organization's People, Processes and Technologies. PMOs provide structure needed to standardize repeatable processes and best practices.

StudentSmart™

Worldgate's Data Warehouse and Business Intelligence solution, StudentSmart™, is a comprehensive K-12 performance reporting solution used by key decision makers and their staff, and has experienced major success at various state school districts and state education agencies.

Systems Integration

Worldgate's 4 phases of integration include: Discovery, Requirements, Deployment, and Operations. Each phase is managed and customized collaboratively face-to-face with the client to integrate the developed solution effectively.

Leadership Development

Worldgate's experienced organizational leadership development team concentrates on a systems approach to support leaders and meet organizational goals by facilitating change, clarifying strategy, strengthening trust, and improving communication.
